

How to use safely

# HARM

# REDUCTION

### USE FENTANYL TEST STRIPS

Fentanyl test strips are not fool proof. False negatives are common, it's like testing a chocolate chip cookie - not every bite will have a chocolate chip in it!

### HAVE NALOXONE

Naloxone is available as a nasal spray or injectable. You get free NARCAN at [nextdistro.org](http://nextdistro.org) or use GOODRX to find discounts at your local pharmacy.

### USE WITH OTHERS

Don't use alone. Make sure someone is around so that they can give you naloxone if you overdose. Overdoses happen quickly - within the first 15-20 minutes of using.

### CALL 911

If you think it's an overdose, call 911. The Good Samaritan Law protects you from arrest for possession of drugs.
